

Intro To Python For Data Analysis

Week 1 Overview

What will we do this week?

1. Install Python 3.X (with the Anaconda Distribution)
2. Intro to Jupyter Notebooks
3. Review Material From *Intro To Programming With Python* (This week and next week)
 1. Variables
 2. Flow Control
 3. Functions
 4. File I/O

What will we do this week?

- **You will see videos with the title Intro To Programming With Python – and sometimes references to weeks 3, 4, ... This is ok – we are borrowing material from that course.**
- Intro To Programming With Python is a 7 week course, we are cramming review into 2 weeks.

What will we do this week?

That's it, let's go!
